

ADDITIONAL FAMILY SUPPORT SERVICES:

FAMILY SUPPORT TEAM:

Many parents find that raising young children requires a great deal of energy and resources. As a complement to our standard early intervention services, Four Oaks provides support through a designated Family Support Team. This Team Offers opportunities for families to connect through special events.

RESPIRE CARE:

Respite care is a planned short-term break for parents/caregivers of children with developmental delays/disabilities, provided by Four Oaks Staff in our centers. If the families need is greater Four Oaks may also link the family to Community Respite Providers. Please ask your PSP about monthly respite opportunities and programs offered in your area. Air Force families please ask about Military programs provided.
