## **October 21, 2026 Board Report:**

**Division:** Early Intervention

**Director Reporting:** Jennifer Frey

### **Updates:**

**Kasey Payton**, EI Secretary/Receptionist, has accepted an administrative position within the Board's Finance and Administration Department. While we are so excited for Kasey and this new opportunity, we are definitely going to miss having her as part of our day-to-day EI team!

Kasey has played such an important role in helping EI stay organized and running smoothly. She has been instrumental in managing new referrals, data processing, and so many of the behind-the-scenes details that are essential to supporting our team and the families we serve. We are incredibly grateful for everything she has done for EI and for the support she has provided to all of us.

**With that being said, there is an open Receptionist/Secretary position. We are currently accepting applications.**

### **House Bill 939 – no change:**

Ohio House Bill 939, introduced in May 2026 by Representatives Andrea White and Mike Odioso, mandates early intervention services for infants and toddlers (birth to age three) through county Boards of Developmental Disabilities. The bill shifts early intervention from a discretionary county function to a required statewide responsibility with partial state reimbursement. I will continue to provide updates as this house bill moves through the House and hopefully sent to the Governor.

**Status:** Introduced and referred to the House Committee on Children and Human Services.

| Date      | Chamber | Action                | Committee                   |
|-----------|---------|-----------------------|-----------------------------|
| 5-20-2026 | House   | Referred to committee | Children and Human Services |
| 5-19-2026 | House   | Introduced            |                             |

### **Noteworthy Monthly Data/Numbers:**

**Our Active IFSP number for September 2026 was 205, and our teams completed 18 evaluations.**

**Greene County EI received 37 new referrals in September.** The highest referral sources this month were parents, then children services (Clark, Greene, and Montgomery Counties), physicians, followed by other various sources such as hospitals, hospital child find specialists, WIC, neighboring county Help Me Grow programs, nonprofit community providers, etc.

### ***Program Information:***
